

Colorado Springs School Illness Watch

Snapshot as of September 2, 2026

SUMMARY

NO CHANGE SINCE LAST CHECK

ALL SOURCES REVERIFIED TODAY

No material change found today. All three sources were directly reverified via browser this run. The CDPHE statewide dashboard is unchanged from last check (Last Update still 8/26/2026; overall activity still **Very Low**) — today is a Wednesday, CDPHE's usual weekly refresh day, but the new figures had not posted yet as of this check (refresh typically lands by ~4pm Mountain). El Paso County's Communicable Disease Data Dashboard is unchanged (main data still last updated 8/12/2026). The "What's Going Around" bulletin archive remains discontinued (last issue Sept. 20, 2025, no new post). The El Paso County dashboard updates the second Wednesday of each month (next due 9/9). Nothing here suggests elevated near-term exposure risk.
