

Colorado Springs School Illness Watch

Snapshot as of September 6, 2026

SUMMARY

CDPHE UNCHANGED

EL PASO COUNTY UNCHANGED

No material change since yesterday's check. CDPHE's statewide dashboard still shows its 9/2/2026 weekly refresh (next update due ~9/9), with overall respiratory illness activity in Colorado at **Very Low** and COVID/flu/RSV ED-visit and sentinel-lab-positivity rates unchanged at near-floor levels. El Paso County's Communicable Disease Data Dashboard is also unchanged (still last updated 8/12/2026; the seasonal respiratory sub-page is unchanged, and the animal bite/exposure sub-page remains at 9/3/2026, which isn't a respiratory or communicable-illness signal). The "What's Going Around" bulletin remains discontinued (no issue since Sept. 20, 2025). Nothing here suggests elevated near-term exposure risk for Colorado Springs specifically.

COLORADO STATEWIDE — CDPHE VIRAL RESPIRATORY REPORT

Overall activity: **VERY LOW**

COVID-19

ED visits	0.23%
Sentinel lab positivity	3.34%

Influenza

ED visits	0.07%

Reverified today via browser render of the Tableau dashboard. Last Update shown on the dashboard: 9/2/2026 (unchanged). CDPHE refreshes weekly on Wednesdays by ~4pm Mountain; next refresh due ~9/9.

EL PASO COUNTY — LOCAL DATA

Communicable Disease Data Dashboard: reverified today. Last updated: August 12, 2026 (unchanged). Updates the second Wednesday of each month (next: Sept. 9).

Seasonal respiratory data: unchanged from prior check (2026 year-to-date chart still ends in July).

Animal bite/exposure data: last updated September 3, 2026 (unchanged — rabies/animal-exposure tracking only, not relevant to circulating childhood illness).

"What's Going Around" bulletin: confirmed directly today via the archive page — still discontinued. Most recent issue covered Sept. 7–20, 2025 (published Sept. 20, 2025). No new issue has appeared.
